

May 12, 1975

in this particular case, it was felt that if they were to keep the guard up to the 90% total that they have now, it would be necessary because of in the last month or two the guard does waiver from time to time and the incentive is not as great to be in the guard all the time. They feel they would use this particular funds to see that the guard is strengthened.

SENATOR WARNER: One more time, the 15,000, what does that go for now? Regular guard duty or something, you said.

SENATOR MAHONEY: The National Guard, Senator Warner, has certain tasks that they have to perform right now or during an emergency status. This \$15,000 added with the 10,000 that they have equips them for doing tasks that come to the Guard that happen overnight, problems that they have. It is a fund that they need to administer some of their other funds, which would include the Emergency Fund as a whole, when they go in and have to contract with contractors to see that highways are cleared up or, if it be in a blizzard. They felt with having the total of \$25,000 available, they would have monies available to move and to move right now when it was necessary.

SENATOR WARNER: Is this not now provided in the Governor's Emergency Fund?

SENATOR MAHONEY: The Governor's Emergency Fund and their purposes there is spelled out in such a manner that the bulk of the large request, be it clearing trees, hiring contractors, this is what is used up from that large fund. This is for small tasks and things that the Guard finds that they are not able to meet with under ordinary circumstances and that is why the sum is at \$25,000 here.

SENATOR WARNER: Senator Marvel, could you...

SENATOR MAHONEY: Senator Warner, the Guard needs pin money and that is what it amounts to.

SENATOR WARNER: That is a better explanation. I wonder if Senator Marvel would yield, if he could help, also, to clarify it.

SENATOR MARVEL: Yes, sir. I will try to answer. Do you want to ask...

SENATOR WARNER: Oh, my question was, do you concur with the detailed explanation offered by Senator Mahoney?

SENATOR MARVEL: We did not receive a request for the pin money for the military. The money that was requested has to do with the Governor's Emergency Fund. In the past, there has also been money for recruitment purposes, for the payment of bonuses to those who re-enlisted. The original budget last session for the re-enlistment purposes was about a half a million dollars. The Governor saw fit to cut this by 300,000, cut it down to 200,000 but the military still met with their prospective members and pledged funds. The Governor in a meeting with the Major General, and this was attested to by the Major General in our Committee hearings, they made an agreement that they would come in for a deficiency. Now that deficiency, even though the Governor cut 300,000 from this fund. So you will find in
